# AERONAUTICAL CLIMATOLOGICAL SUMMARIES

## PANTNAGAR AIRPORT PANTNAGAR

OFFICE OF CLIMATE RESEARCH & SERVICES  
INDIA METEOROLOGICAL DEPARTMENT

## PREFACE

The aviation industry in India has emerged as one of the fastest growing industries in the country during the last three years. India is currently considered the third largest domestic civil aviation market in the world. Same time meteorological information plays an essential role for all sectors of the Aviation industry - airlines, airports, air traffic control and management for taking correct and timely decisions that makes navigation safe, efficient and cost effective.

Aircrafts fly in the atmosphere where most of the weather systems develop and decay. Information of important meteorological parameters related to the safety of aircraft such as atmospheric Pressure, Temperature, Wind direction and speed, Visibility, Runway Visual Range (RVR) and Cloud Height are needed for smooth operations of an aircraft from take off to the landing phase. It is therefore very essential that climatology of an airport is available as a ready reckoner to understand mean number of occurrences (frequencies) of various weather elements in different temporal scales which affect aircraft operations round the clock. Aeronautical Climatological Summary of an Airport provides this vital information. Aeronautical Climatological Summaries for various National and International Airports are being prepared and updated at regular interval. The publication is prepared on the pattern of WMO Models A, B, C, D, E and Table VI in accordance with the procedures laid down in Technical Regulations as per International Civil Aviation Organization (ICAO) standards. The details of these models are given in Appendix-1. The present publication has been prepared for Pantnagar Airport, Pantnagar (Latitude 29° 03'N, Longitude 79° 46'E and Altitude 233 m) using the meteorological data for the period 2015-2019.

In this present publication, Mr. Bikram Singh Head/Scientist-F, MC Dehradun and Mr. Rohit Thapliyal, Scientist-C provided valuable guidance and constant encouragement to the officials involve in this work at local meteorological office level. The valuable contribution were made by Shri H.C.Tamta Met.-A, Shri Sanjai Saxena SA, Shri A.K. Agrawal SA, Shri. Piyush Choudhary MTS, Shri. Puran Chandra MTS and Shri. Amit Sharma MTS towards quality of work and keying of voluminous data within stipulated time period.

The entire work of this publication has been done by a group of officers and staff members led by Shri Nahush Kulkarni, Scientist- C, under the guidance of Shri. A.D. Tathe, Scientist E, Group Head Climate Data Management Group (CDMG). The valuable contributions were made by Smt. S.H. Joshi, Met- A, Shri Pradeep Rajmane, Met-A and Smt. Reshma Pathan, SA towards the preparation of theses summaries. I appreciate the help rendered by entire team.

I am hopeful that this publication will serve as a source of useful information to aviation services.

Dr. D.S. Pai  
Head CRS
